KATESH, SECONDARY SCHOOL,
P.O. Box 199,
KATESH - HANANG.
18th NOVEMBER 2019.

Dear Chris & Catriona Harker,
Hi to you! It's my hope that you, your friends, family and other relatives are very fine. I am fine too and I'm doing well with my studies.

First of all I would like to tell about the National Examination which I did it from 11th November to 15th November 2019. By my side I had tried to answer the questions as much as I studied and I believe that I will pass well my exams.

Also I would like to wish you merry Christmas and happy new year 2020. On my side I expect to celebrate Christmas day with my family member and also we expect to attend for English Immersion weeks after Christmas.

Thank you so much for being my sponsor and I got this chance of being CHES girl because CHES helped me to study well also I got other needs. During CHES programmes like CHES Tutorials I got much knowledge hence I study together with students from different schools also I meet with different teachers that I get new skills according to challenges I had. CHES help me to improve my performance hence I had enough time to study, presence of electricity and extra solar power at hostel, water supply also enough food that are important needs for students to study well.

Dear Sponsor without CHES real now I think I was just staying at home as other girls who do not get a chance to go to school also sometimes even to be married because some of girls that I graduated with them now they have two children. So that without CHES now I was just suffering with terrible pain of the world.

Lastly, thank you so much for that you had choose me to be your daughter out of many girls who need to be sponsored I am proud of you as you are proud of me. I promise you that I am studying hard in order to reach my goals to become a doctor. May God Bless you. Pass my great greeting to all of your family friends and other relatives at your mother country.

Best of luck on your everyday work

Your lovely daughter,

Victoria Sixberty.
